what the

All participants will develop their competences in applying non-formal education methods to train young people in financial management. By the time young people finish school, they have not acquired the knowledge and skills needed to manage their personal budget effectively and they face various problems (poor budget choices, lack of savings, not having an emergency fund, not planning for the future etc). They feel unprepared for "real life" due to their lack of financial literacy.

SKILLS AND
ATTITUDES
PARTICIPANTS
WILL ACQUIRE:**

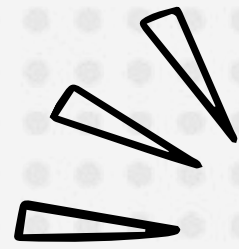

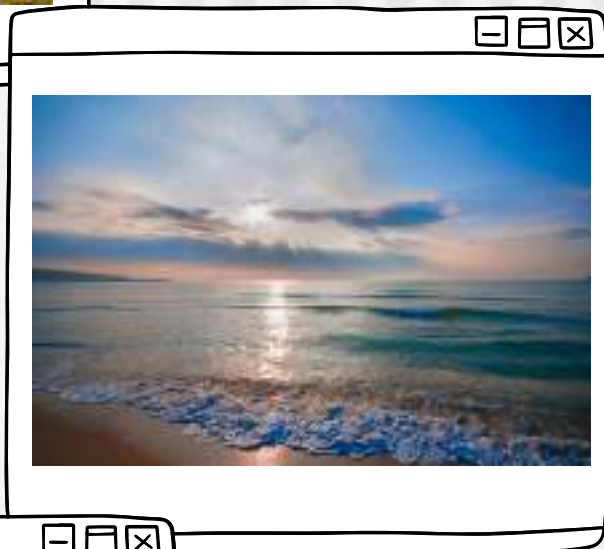

-better understanding of essential financial management terms and how to introduce them to youth

-expand their portfolio to include topics related to financial education needed for young people's personal and professional development

-develop their competences to enable them to successfully facilitate sessions on financial literacy and enhance their practices

CULTURAL EVENING

Preparation for cultural evening: We will have a traditional evening during the project where every team will have space to present their country. You can bring typical costumes, ornaments, leaflets, posters, flyers, food, sweets, drinks... and so on!

Also, you can show videos, photos, sing music and dance traditional dances from your countries! We are counting on you to make this evening as interesting as possible and promise to help you in any way that we can! There is no project budget for this activity, so decide what you can take, use your creativity, take homemade things etc.

OTHER IMPORTANT INFO

Weather forecast: it is usually quite sunny in Varna in this period but as we are close to the seaside, it can get very windy too. Check the forecast a few days in advance and prepare appropriate clothes and shoes.

Eco-friendly: we are trying to have an eco-friendly project, so would really appreciate it if you can bring:

- you can choose whether to bring your own towel to be more sustainable (the hotel is providing towels)
- a notebook to take notes
- a favorite cup/mug from home
- a reusable water bottle that you can refill with mineral water here

ACTIVITIES AFTER THE PROJECT

After the project concludes, participants will be invited to carry out activities linked to the topic in their local community. They are encouraged to share the knowledge they've acquired with young individuals, whether it be within a school or a similar youth-focused setting.

LOCAL ACTIVITIES

The reimbursement will be issued after these local activities.
