MOBILITY OF YOUNG PEOPLE

Why Do We Want to Implement Our Project

As a type or dimension of entrepreneurship, digital entrepreneurship has a very important position in the economic development of a country, in increasing employment, and in developing and spreading the understanding of innovation.

Through our project, we aim to research digital entrepreneurship and digital entrepreneurs in Turkey and the world as a product of the change in entrepreneurship approach consistent with digital transformation. In this direction, digital transformation, the definition of digital entrepreneurship, its characteristics, importance, types, and differences from traditional entrepreneurship are mentioned; The development and current situation of digital entrepreneurship in Turkey and the world will be examined.

Besides all these; among the reasons for implementing our project; to support young people in the world, especially those in our country, on entrepreneurship and to create social awareness to improve their digital competencies. We aim to cooperate with decision-making mechanisms to support young people in our country educationally, socially, culturally, and economically, to develop their creativity, and to direct them to entrepreneurship within the scope of digital transformation.

We aim to encourage young entrepreneur candidates to put their ideas into practice at a time when digitalization has become widespread due to the problems caused by the Coronavirus, which has reached the level of a global epidemic.

OUR SUGGESTIONS

Dear Participants,

As you prepare for your upcoming journey, we want to remind you to stay vigilant when it comes to securing your travel arrangements. Ticket prices can fluctuate, so it is essential to regularly check for the best deals to ensure you get the most value for your money. By staying proactive and monitoring ticket prices, you will have a better chance of finding affordable options that suit your budget and schedule.

Additionally, please keep in mind that accommodation arrangements for our programs typically involve hostels. Hostels offer budget-friendly lodging options and a unique opportunity to connect with fellow participants. However, it is essential to be prepared for this type of accommodation. Hostels often provide basic amenities, so we recommend bringing along any personal items you may need for a comfortable stay, such as towels, toiletries, and sheets.

By staying informed and prepared, you will be better equipped to make the most of your travel experience. We appreciate your attention to these details and look forward to welcoming you to our program.

Safe travels!
