ABOUT US

LUMEN is youth non-governmental organization established in spring of 2000 with the aim to improve the quality of life of young people in Ludbreg town and northwest region of Croatia and to bring their social inclusion and activism to a higher level.
Our main objectives to develop cultural, democratic, social and ecological conscience among youth, to encourage cooperation of young people with different interests and activities and to increase influence of young people on work of local community. We continued with our goals from past years as we managed to help young people from Ludbreg and Croatia to see different parts of Europe and world, to volunteer and learn through different programs.
By this we want to empower youth, giving them tools and skills for future life and raise their sense of European identity. Our main principles are connected with environmental sustainability, responsibility, inclusion, diversity and active participation.

THIS PROJECT IS MADE IN COOPERATION WITH

HEureka Generator

Since 2016. the ***HEureka Generator*** association has been the main administrator of the international network of theater game fans - ***'Imaginary Realms'***. The network includes non-governmental organizations from Poland, Croatia, Lithuania, Estonia, Hungary, Romania, Slovakia, Bulgaria and Ukraine.
Members of the network actively create theater games used during international youth exchanges.

Each game is an oportunity to refine new solutions, and each meeting of members to outline further development activities of our network. Within 12 years, the NGOs belonging to the network have already met more than 30 times. More than 50 theater games were designed and performed, involving young people and youth workers from 11 countries.

PARTICIPANTS

A dynamic group of 30 youth workers (18+) will convene for this training. Hailing from various regions and cultural backgrounds, these participants will bring their unique perspectives and experiences, fostering a diverse and enriching learning environment. The selected participants are individuals deeply committed to youth development and education.

WHY WE USE THIS METHOD

Theater games are quite popular entertainment that many people play in private. There are also comercial events based on theater games. This activity is not only incredibly effective and addictive, but also very flexible in its application. It is easy to incorporate educational elements into it, that will encourage players to expand their knowledge and exchange experiences on topics we are discussing.
This is where we saw the great potential of theatre games, which we use in our work with young people.

WHO IS THIS TRAINING DESIGNED FOR?

- people who are interested in learning about and using the non-formal method ‘theatre game’
- volunteers and members of non goverrnmental organizations who want to enrich their range of tools used in working with a group
- people without theater experience who would like to learn the practical use of theater methods useful in working with a group

WHAT WILL YOU LEARN DURING OUR TRAINING COURSE?

- How to use a theater game in an educational way
- What are the differences between theater games for different age groups
- What is a specifity of games that are played with young people in English
- How to prepare a script for a theater game
- How to create a good character sheet
- What are game mechanics and how to adapt them to our group of people
- How to easily create special effects for our game
- What to do when there are problems in the game
- How to prepare a good reflection activity after the theater game
