

Scouts4future 2024

Youth exchange

Summary

Welcome to the Scouts4future youth exchange participants group! In this document we gather for you all the most important information related to the upcoming meeting. And if you have any questions or concerns, we are at your disposal all the time!

Dates

20 to 30

July 2024

Project Idea

The main goal of the project is to create a space for integration, experience exchange, and creative cooperation (primarily in creating the main effect of the exchange, i.e., program proposals for scout teams in various organizations) among scouts from different European countries.

The project will provide a unique opportunity to learn about methods and forms of work used by scout organizations in individual countries. As a result, participants will be able to implement them in their own environments. We want young scouts to have the opportunity to meet their friends from other European countries and familiarize themselves with the history, traditions, and work forms of other scout organizations. The project activities will allow them to see what unites them and what differentiates them. Thanks to the exchange, participating individuals will be able to share knowledge and experience, and acquire new valuable competencies. In addition, they will learn new methods of scout work and non-formal education.

Agenda - what are we going to do

Schedule is divided into two blocks: "knowledge" and "scout skills".

Within the knowledge block, on individual days we will analyze how our organizations differ in the following topics: history, rituals and traditions, methodology and forms of work, social service.

Within the "Scout Skills" block, each day each national group will be tasked with preparing an activity for the rest to earn a selected "Scout Skill" that can be earned in their scouting organization.

At the end, we will work out a program proposal for scout teams in our organizations, which will help them learn how other scouting organizations in the world work. This will be the main result of the project.

In addition, we are planning a canoeing trip and a number of different similar activities :)

Infopack will be replenished on an ongoing basis over the next few weeks...
