Reimbursement

Keep all travel documents, tickets, itineraries (online or physicals)

Save all boarding passes (screenshot if needed)

Keep proof of payment

Once you have purchased the tickets and you have been added to the group, you will find a Padlet link!

Padlet is an AMAZING tool which we will be using throughout the whole project!!! In Padlet you will find direction to the Reimbursement folder, which you can already start working on: upload your confirmation ticket for the flight in the designated folder of your country by creating a separate folder with your own name (for easier identification).

Please rename the documents you upload with a short description of what that document represents or even SURPRISE us and put them in chronological order <3!

Copy the excel file in your own country's folder (be aware, should be ONE excel per country). Inside the excel file create a sheet with your own name, inside your own sheet start adding the costs which you'll need reimbursement for. Don't worry about the exchange rate, we will calculate that later on.

You can bring typical costumes, ornaments, leaflets, posters, flyers, food, sweets, alcoholic and nonalcoholic drinks... and so on!. Also, you can show videos, and photos, sing and dance traditional dances from your country! We are counting on you to make these evenings as interesting as possible and promise to help you in any way that we can!!!

Health insurance

In Romania European Health Insurance Card (EHIC) holders are able to receive state-provided necessary healthcare during temporary stays. The insurance covers or reduces the cost of any state-provided medical treatment that becomes necessary. EHIC is not an alternative to travel insurance, but it is possible to take out a private insurance policy in addition to EHIC. Remember to check whether your EHIC is still valid before traveling!

Currency and power sockets

We have Romanian Leu (RON) as currency in Romania. Please be aware about exchange rate as 1 EUR = 4,95 RON.
In Romania the power plugs and sockets are of type F. The standard voltage is 230V and the standard frequency is 50Hz
